Above all, stay positive and do not express a negative attitude that your child is likely to imitate. @ Mathcoachcorner / Twitter Customize math assignments numbers sometimes work in very interesting ways. @ MathematicsProf / Twitter Being positive Brains are like sponges, and absorb all kinds of observations and suggestions from adults – both positive and negative. If you do not encourage an understanding of memorization from the very beginning, students could find themselves on unstable foundations as mathematics becomes progressively more difficult. Whether you're a parent helping your child at home or a teacher in the classroom, tackling the process with the right teaching methods can make a huge difference. Raise the bar OK, every student won't fall in love with mathematics, even after building their trust and showing them that they can learn. This makes mathematics important for more than just one note on a report card. @ Mathcoachcorner / Twitter Collaborating with teachers and parents whether you're a teacher or a parent, it's always a good idea to collaborate with each other. They'll like it a lot more than a certificate or badge. Not in advance by giving them rewards for hard work! They shouldn't have to wait until they reach big things like getting a report on report cards and pending test scores. When that's the case, it's vital to look at the topics students need to know for their exams, and it takes some advance planning to ensure you cover all of them in detail. In fact, some students find mathematics difficult and don't like it so much that they do everything they can to avoid it. @ Mathcoachcorner / Twitter Apply Math to Real-World Scenarios When you talk to students, it's clear that one of the main problems with math for many of them is that it seems too abstract to them. No of sports, this often comes in the form of medals or trophies. In short, this means that some problems can be solved in stpecnoc htam niatrec dnatsrednu ot elggurts ohw stneduts emoS ecnedifnoC dliuB .ssergorp drawer ot tnatropmi sÁÁÁeti .tneduts ro dlilh ruoy htiw no gnikrow erÁÁÁe uoy tcejbus tahw rettam oN ssergorP draweR rettiW/renroChcaoChtaM@ .nevig erÁÁÁe yeht tahw htiw pleh ot deraperp eb ot deen ylpmis yeht dna .krowemoh sa smeti cifceps emoh gnirb stneduts .stnerap tsom rof ecnavdA ni nalP rettiW/forpscitamehtam@ .sloot dna seuginhcet tlgir eht htiw htam nrael nac enoyreve .srehto naht ylkiciug erom stpecnoc htam dnatsrednu stneduts emos taht eurt ylniatrec sÁÁÁeti elihw .mulnicirue a wolof loohcemoh ohw stnerap dna srehaect .revewoH .tseb rieht od ot detcepxe syawla era yeht taht langis lutrewop a dnes ot segnellahc reggib neve htiw rab eht esiar .daetsni tI od meht tel tÁÁÁe noD .sevil ruo ni si htam tnatropmi woh tsuj dnatsrednu stneduts spléh ni etapicitrap dna ees nac yeht sksat nomnoc ot yrtmeog dna salumrof .snoitcege gnilyppA meht woh os ÁÁÁe dlrow laer eht ni ofil yliad ot setalor htam syaw eht lla dnatsrednu tÁÁÁe noD yeht esuaceb yaw tahw leef yeht loohes fo tuo erÁÁÁe yeht retfa gnoI eht ni deen liiw yeht silks sevlwoni ti tub .gnuyoy erÁÁÁe yeht nehw tcartsba ehtIla a leef yam htaM .tuo ti erufig uoy pleh ot .nomrep rehona ro secruos enlino morf ecnadiug kees neht dna xaler ot kaerb trops a ekat .flesruoy detartsurf leef ot trats uoy fi nevé .ylkiciug seldruh tsap teg uoy pleh dna kcart no uoy peek lliw siht .stpecnoc cisab rof neve loot elbaulav a si ytisoiruc tub .ytisoiruc eripnsi yllarutan ot dnet htam ni saedi qiB rettiW/renroChcaoChtaM@ .tsom yojne yam yeht stcejbus ralucitrap eht rof snoissap nwo rieht revocid ot enahc a meht sevig meht edug ytisoiruc rieht gnittel .yllanoitiddA rettiW/renroChcaoChtaM@ .ti htiw meht gnipleh dna htam tuoba gniklat ot semoc ti nehv yas uoy tahw tuoba tnaligiv eb ot lacticirc sÁÁÁe tI .sevlesmeht evag yeht ksat a tuoba citsaishtne eb ot ylekil erom raf era yehtT .yaw eno naht .htm .htew stenduts pleh ot syaw detset-emesha ta ta kul a ekat, trats ot erehw erus ton erAA2uoy fi .stpecnoc gnignellaac ro we htiw meht gnipleh erAaAaAnuy nehv yllaicepse, semit la snoitseug dna ytisoiruegaruocne erus eB .citxen eht no gnivom erosteprontreitseutNCTintereweEo tÁÁÁe tollahNoD .tiTadoog yna tÁta ÁÁAllazAndnera yehtEsuaceb7tvAT0IqATATATATATATAIT0jpA0jpmis htamT gniveileh tratsDegaruocsid
